

Learn to Dive

BSAC Ocean Diver Course January 2020

From the very first time you breathe underwater, scuba diving will inspire, challenge and surprise you. Many divers say that it is life-changing and, with the sense of achievement that comes from learning to dive, it is easy to see why. Scuba diving will appeal to anyone who is reasonably fit and has a spirit of adventure. With the right training and support, it is also easy and fun to learn and you can do so locally, with Totnes Sun Aqua Club. Our British Sub Aqua Club (BSAC) qualifications are recognised around the world.

The Ocean Diver Course

We are now recruiting for our next Ocean Diver course.

The aim of the course is to teach you to be competent in the safe and correct use of open water scuba diving equipment in a sheltered water training area – a swimming pool - and then to introduce you to open water diving – in the sea - under the supervision of a BSAC Qualified Instructor.

The course involves some 6 hours of classroom modules and 5 hours of pool modules. This is followed by a number of dives in the sea to complete your qualification. You can then dive to a depth of 20m and enjoy some of the fantastic local dive sites.
